PROFESSIONAL PROFILE

Cybersecurity student at ISTEC Lisbon, focused on SOC and Blue Team roles, with cloud security as a long-term goal. Over 10 years of experience in aviation and hospitality/short-term rental management, in regulated environments handling sensitive customer data. Hands-on projects: malware analysis (DarkComet RAT, with MITRE ATT&CK mapping), digital forensics, and systems administration (Active Directory, Hyper-V). Seeking an 800-hour curricular internship in cybersecurity in Lisbon, 2027, to complete the program, learn, and contribute with integrity to the protection of systems, data, and users.
