CERTIFICATIONS

ISC2 Certified in Cybersecurity (CC)
ISC2 · Sep 2026

Microsoft SC-200 (Security Operations Analyst)
In preparation · expected 2027

ADDITIONAL TRAINING

Cyber Security 101
TryHackMe · Oct 2026

Python for Everybody
University of Michigan / Coursera · Dec 2025

Introduction to SQL
DataCamp · Nov 2025

SOFT SKILLS

- Attention to detail
- Critical thinking
- Working under pressure
- Clear communication

LANGUAGES

Portuguese — native
English — C2
Spanish — B1

PROFESSIONAL PROFILE

Cybersecurity student (CTeSP) at ISTEC Lisboa, focused on Blue Team operations with an interest in cloud security. Hands-on experience in memory forensics, malware analysis and SIEM monitoring (Wazuh), with daily practice on TryHackMe. Seeking a curricular internship or junior SOC role in Lisbon, available immediately.

Hands-on projects and forensic reports available in my interactive portfolio.

HANDS-ON PROJECTS

Final Project: Colmeia, AI Agent for Alert Triage in a Mini-SOC

In progress, expected completion Feb 2027 · Azure, Sentinel, Cowrie, honeytokens, Claude API.

- Deployed an SSH honeypot (Cowrie) on Azure capturing real-world attacks; events will feed Microsoft Sentinel, with detection rules mapped to MITRE ATT&CK.
- Developing an AI agent for L1 triage (KQL, IOC enrichment), benchmarked against a rule-based baseline and tested for prompt injection robustness (OWASP LLM Top 10).

Memory Forensics: RedLine Stealer vs. LockBit 4.0

Comparative study (infostealer vs. ransomware) in an isolated lab (VMware, Volatility 3).

- Identified TTPs via MITRE ATT&CK: process injection (T1055) and shadow copy deletion (T1490).
- Solved memory acquisition issues (PTE remapping with WinPmem; Driver Signature Enforcement workaround with Magnet DumpIt).

Malware Analysis: DarkComet RAT — *behavioural analysis in an isolated lab, with TTPs mapped to MITRE ATT&CK.*

Network Infrastructure: Black Mirror (ASR)

Deployed and defended 6 network services (OPNsense firewall, DNS, DHCP, WordPress, Nagios, Wazuh SIEM) on Hyper-V, tested end to end.

PROFESSIONAL EXPERIENCE

Property Operations Manager — Dec 2025 – May 2026

Placetostay Student Housing · Lisbon

- Managed a portfolio of 30 Airbnb properties, coordinating operations across multiple teams.
- Handled sensitive guest and payment data across the portfolio.

Booking Agent — Oct 2024 – Nov 2025

BnBird Homes · Lisbon

- Managed the full booking and payment cycle across 5 channels (Airbnb, Booking, Expedia, VRBO, Plum Guide), with full responsibility for customer data.

Guest Service Agent — Oct 2022 – Sep 2024

Innkeeper Group · Lisbon

- Performed in-person check-ins and property inspections before each stay.
- Managed bookings and payments; monitored occupancy and guest satisfaction KPIs.
- Reduced average response time from 1 hour to 15 minutes.

Ground Services Agent — Aug 2021 – Oct 2022

Janeiro Inflight Services / TAP Premium Lounge · Lisbon

- Handled check-ins and security protocols, with bookings in Amadeus, in a fast-paced airport environment.

Cabin Crew Member — Jul 2014 – Aug 2021

Ryanair · Porto

- Ensured strict compliance with civil aviation, safety and hygiene regulations.
- Responded to real in-flight incidents under pressure, on rotating shifts.

EDUCATION

Higher Technical Professional Course (CTeSP) in Cybersecurity — Sep 2025 – present

ISTEC – Instituto Superior de Tecnologias Avançadas de Lisboa · expected 2027

Bachelor's Degree in Tourism — 2009 – 2013

Universidade Europeia · Lisbon
